Oracle Software with PROMATIS Solutions

Award-winning Oracle financial management software combined with reliable PROMATIS Best Practice solutions, project management processes, process models, templates, and services.

From the pioneer of the process-oriented introduction of Oracle enterprise software solutions: the Kickstart for your modern financial management!

Why the Finance and Accounting Cloud?

Deliver decisive insights into your company's financial position and profitability with a comprehensive global solution designed for organizations of every size and industry.

Lay the foundation for a modern ERP solution and expand it as you grow: project portfolio management, procurement, sales, human capital management.

Kickstart for process innovation!

With the Kickstart offerings for the Oracle Applications Cloud, PROMATIS enables a smart entry into the use of application software services: fast, economical, low-risk. For a fixed price!

A pre-configured Oracle SaaS product suite with best practice business process models and proven PROMATIS implementation and training services.

Kickstart Finance and Accounting Cloud

PROMATIS Kickstart provides a comprehensive finance and accounting solution that meets international and local standards. It convinces not only by supporting modern financial processes, but also by its open architecture: via standards-based interfaces, the system can be integrated quickly and securely even into heterogeneous application landscapes.

PROMATIS Best Practice Solution ERP

The PROMATIS Best Practice products are functional extensions for and adaptations of Oracle applications. The result is end-to-end, cross-company business processes that can be implemented economically and quickly in the company.

Oracle Applications Cloud ERP

The ERP software is the heart of all business processes in the company. Oracle's modern, networked cloud applications provide tools and capabilities to streamline business processes such as procurement, project management, and finance. These innovative solutions help increase productivity, reduce costs and increase controls.
